Before your child reads, go over the title and the key words together. They don't need to write a prediction. Then listen to your child read the whole story out loud. Please write down the time it took your child to read the whole story. If your child doesn't know a word, wait 3 seconds to see if they can figure it out, then tell them the word. If they miss a word, or say a word incorrectly, tell them the correct word so they don't learn in wrong. Have them read the story 1 time each night.
